

CONSTRUCTION SITE GANTRY

OVERHEAD PROTECTION & PORTABLE BUILDINGS SYSTEM

With pedestrian safety around building sites a key issue, solid & safe overhead protection is essential. Royal Wolf's 'B' Class Container Gantry provide effective 10kPa rated protection for pedestrians & workers from construction materials, debris & other falling objects.

As a totally integrated modular unit with floor, walls & roof all connected you can be guaranteed an extremely impact resistant structure. Royal Wolf's 'B' Class Container Gantry satisfy relevant Codes of Practice & offer substantial benefits over traditional gantries.

Benefits of 'B' Class Container Gantry

- Superior pedestrian protection
- Effective space utilisation
- Exceptional presentation
- Extremely quick installation
- Impressive vehicular impact resistance
- Superior stability
- Single certification process
- Slip resistant flooring
- Removable floor option for service point access
- Direct connection to buildings without the need for costly stacking frames
- Competitive pricing structure

Components of 'B' Class Container Gantry

- Gantry modules available in 3m, 6m & 12m lengths with interior lighting
- Extensions, span sections & corner angles
- Platforms Bases for scaffold structures or delivery drops
- Storage Platforms with perimeter protection barriers

UNIQUE GANTRY & BUILDINGS PACKAGE

Royal Wolf's 'B' Class Container Gantrys are designed to be used as part of a total package. By combining the Gantrys with Royal Wolf's Container Buildings, you'll save on costs & can be assured that certification will be valid & relevant to the structure.

Royal Wolf's wide range of Container Portable Buildings offer a convenient & secure solution to building site amenity requirements whilst ensuring maximum space utilisation. Available in 3m, 6m & 12m lengths, portable building designs include:

- Site Offices
- Lunch Rooms
- Change Rooms
- Toilet & Shower Buildings
- First Aid Rooms
- Storage Units
- Combo Units - office + toilet; lunch room + toilet; office + storage

Each building is 2.44m wide and is available with a variety of optional inclusions.

Benefits of Portable Container Buildings

- Twist lock neatly onto the top of Royal Wolf's Container Gantrys
- Present a stylish & uniform appearance
- Satisfy all relevant Codes of Practice
- Provide superior insulation
- Connect end to end saving valuable space
- Ability to be stacked to multiple levels
- kPa rating of 10 negating the need for additional overhead protection
