

100% SELF CONTAINED WORKSITE POWERED BY RENEWABLE ENERGY

THE NEW GAME CHANGING SITE HUB

Experience **fully functional site facilities** even in remote or service-limited areas. **Setup within minutes.**

Site Hub by Royal Wolf is the cutting-edge solution that empowers businesses with efficient operations and cost savings, all powered by renewable energy. With 13 x 415W or 13 x 430W Solar Panels and 20kWh lithium battery storage, Site Hub operates reliably around the clock, fueled by the sun's energy. It ensures uninterrupted functionality, even in adverse weather conditions.

In fact, Site Hub can sustain operations for up to 5 days without sunlight, thanks to its advanced energy storage capabilities. For added peace of mind, Site Hub is equipped with a 32Amp Single Phase plug, allowing easy connection to a generator for battery charging during extended periods of inclement weather.
