- **Safety and functionality**
Security and safety
- **Safety first**
Using the container

GALVANISED GRATED FLOOR

Bunded galvanized grated floor includes a drainage system to collect any harsh chemicals safely. It is fitted with a valve for easy cleaning and offers a durable and corrosion-resistant surface.

VENTILATED SPACE & EMERGENCY EXIT

Vents are fitted to ensure proper airflow and prevent the accumulation of hazardous fumes. An internal emergency door release mechanism allows users to exit the container quickly if necessary.

SECURITY AND SAFETY

Additional earthing connection point provided to secure copper tail and earthing rod (not provided) on the outside of the container for customers to use, if required. Dangerous Goods containers to be installed in accordance with AS1940-2017.

USING THE CONTAINER

These containers are designed with safety and functionality in mind to handle dangerous goods effectively. Relevant signage is supplied to inform users about what the container is loaded with.
