With no pre-prepared internal fit-out, it is ready for you to customise to suit your specific business needs and significantly reduce your initial start-up costs.

Stripped back to the bare essentials, Pop-Up Starter Packs are created from a 20ft ex-lease High Cube container with a side shutter and large side entry door. For added durability, they come with a heavy duty Marine grade 28mm thick ply floor (raw finish). All units include structural certification.
